Some people do deep clean to begin with and then change to standard clean to keep on top of the cleaning. Others prefer to do the house or flat as standard clean and then chose one room at a time to keep the cost down and both options are fine. We highly recommend to do a deep clean every 6 or 8 months to keep on top of the cleaning but this is of course entirely optional.

Unless asked by the customer we NEVER clean inside wardrobes, cupboards or drawers. We respect your privacy by not opening things unless we asked. If it's important, please mention it as we will not do this unless asked.

The inside of ovens, microwaves, fridges are not included on deep cleans. They can be done as an extra. Please check the website for the list of housekeeping extras and the prices.

Deep cleans are not limited to these, we also clean Attic, Seller, Garage and even outside.

It's common practice to check to see if anything needs replacing like: towels, toilet paper, kitchen roll and empty bins.
